

Custom Battery Pack Manufacturer

With design and manufacturing facility in China, Large Power is a leading global supplier of lithium battery pack and cell with over 20 years experience.

Who We Are

We are a national company engaged in advanced battery technology with manufacturing facility in China, with over 15000 square meter and over 184 Mwh advanced battery cell production capacity annually.

We hold AS9100, ISO 9001, ISO 14001 and ISO 18001 accreditations and passed Wal-Mart factory qualification system and are authorized to transport lithium battery products worldwide.

Why Choose Us

Deep Industry Experience

We are committed to providing innovative solutions that will help create a better tomorrow for everyone.

Core R&D Expertise

We held 17+ in house labs for battery pack and battery cell design, our key focus is on high energy density, discharge rate and temperature research

Innovation and Client Center

We provided tailor made solution to over 9000 cases for over 20 industries over last 23 years with no negative feedback

Our Services

Custom design and build

- Build power systems that meet these requirements
- Verify and validate the requirements
- Scale up mass production

Battery products

- Battery cell product such as 18650 low temperature cell
- 26650 mass production off the shelf product

Support

- Battery support throughout the lifecycle
- From initial design to certification
- Manufacturing to distribution

Markets we served

- Medical
- Aerospace
- Industrial
- Electrical
- UAV and ROV
